# COMBI REVEAL PROFILE

## 1 PROFILE - 2 PLASTER THICKNESSES

Structure  
for 6 mm  
plaster

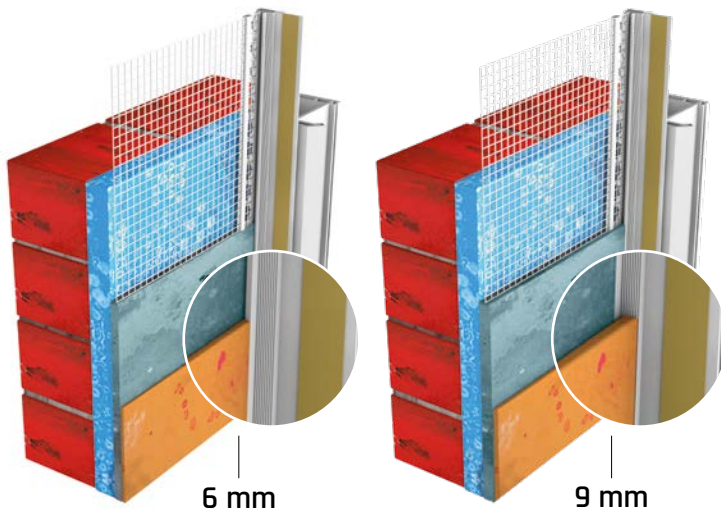

Structure  
for 9 mm  
plaster

## THE NEW COMBI REVEAL PROFILE

### The all-rounder among the reveal profiles

With two removal edges, it can be used for 6 mm and 9 mm render thickness at the same time... Regardless of whether you are using a mineral or paste render system: You only need one profile. With the additional visible lip, you also have a nice, clean finish. The new combi reveal profile complements our range of reveal profiles very well.

**Art. no. 646900**

6 mm

9 mm

Whether mineral or  
paste plaster system:  
You only need  
one profile.

## MORE REVEAL PROFILES

### Best value for money

Our patented Dynamik 3D reveal profile impresses with high movement absorption in all directions, simple processing and a reasonable price. The technical properties of our Dynamik profiles have been evaluated by an independent testing institute.

**Art. no. 644810 / 645810**

**INTERIOR**

**Top seller for interior use**

The reveal profile 643300 with flexible visible lip for a perfect edge between plaster and window is our top seller for interior use. The incorporated 3 mm thick foam adhesive tape ensures a flexible connection and prevents cracking. This profile is available in 6 mm and 9 mm plaster thickness.

**Art. no. 643300 / 644300**

**Profile with flexible viewing lip**

**EXTERIOR**

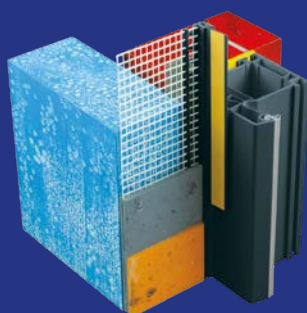

**Profiles for façades with shadow gap**

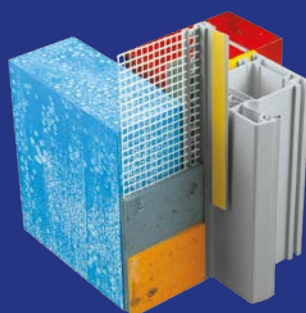

We have two profiles, Akkordeon and Phantom, for all those who prefer a shadow gap at the window. Both profiles absorb movements in the window gap and thus form a permanently secure connection between the façade and the window. The special construction creates a beautiful shadow gap.

**Art. no. 643800 / 644600**

Akkordeon and Phantom for beautiful shadow gaps.

Anthracite (RAL 7016)  
**Art. no. 6448110001**

Dust grey (RAL 7037)  
**Art. no. 6448110001**

**COLOURED PROFILES FOR PERFECT TRANSITIONS**

Our profiles are also available in colour for all design-conscious customers. This ensures a perfect colour transition. The current trend colours here are anthracite (RAL 7016) and dust grey (RAL 7037). Both are included in our range as standard.

We are always available if you have any questions or suggestions.
